Hi Lou – let's start thinking about what a One Pager might look like – and I know this will be challenging given the amount of interest in the IRIS Program recently. For example, the Oversight letters and our recent briefings to the hill staffers (both House Committees). We should be thinking about what question(s) could the Administrator receive on the IRIS Program at this hearing. The format for the one pagers is simple – Question(s); Answer(s); followed by background.

I have a fact sheet from 2015 entitled IRIS Enhancements – but it is way too long – 4 pages. It is attached here.

Talk soon or early next week.

Thanks,

Subject: Administrator set to Testify: June 22nd with HSST

Hello folks,

Just heard that the Administrator is set to testify in front of the House Science, Space and Technology Committee on June 22nd. **The subject of the hearing is EPA's regulatory agenda, scientific justifications for rules, and how projected benefits compare with the costs of implementation.**

OCIR has only requested information on the IRIS Program from ORD – but I suspect they will ask for additional fact sheets next month. Stay tuned for those updates and I am waiting for the official invitation from the Committee.

For now – they have asked for a **one-pager on the IRIS Program by June 6th** and I'll connect with Lou D'Amico on this shortly.

Thanks,
